**predstavitev slovenskega  
konzorcija geodetskih podjetij**

**SLOgeodeticcompany**

**PARS d.o.o.**

## **BASIC DATA**

---

Name: **PARS d.o.o.**  
Registered office: **Arkova ul. 11, 5280 Idrija, Slovenija**  
Executive: **Egon LIKAR**  
Founded: **1990**  
Employees: **5**  
URL: **[www.pars.si](http://www.pars.si)**

**SLOgeodeticcompany**

## SCOPE AND ACTIVITIES

---

Company **PARS d.o.o.**, Idrija was founded in 1990 and was the first private company in Slovenia which has obtained the authorization to carry out surveying services. Our company performs surveying and consultancy in the fields of land cadastre, cadastre of buildings and storey ownership rights, cadastre of public infrastructure; real estate evidences for the purpose of real estate management and taxation; topographical measurements, engineering geodesy, management of digital data bases and cartography.

## KEY PROJECTS AND ACTIVITIES

In early years company performed **surveying services** for the municipalities Idrija and Logatec, as a pilot example of cooperation between National Geodetic Administration and private geodetic company. Tasks included **parceling, preparation of geodetic plans and transferring of new parcels and buildings** in kind.

In addition to the land cadastre we are also largely involved in **engineering geodesy, including measurements and observation of horizontal and vertical displacements** of built objects and terrain and transferring demanding facilities of low and high construction works.

## KEY PROJECTS AND ACTIVITIES

In 1993 we have created **topographic maps for facilities** under the authority of Ministry of Defense of the Republic of Slovenia in Ilirska Bistrica, Postojna, Pivka, Bloška polica as well as for the training grounds of Poček and Bile and the Bač shooting area.

In 1994 we started working with the Surveying and Mapping Authority of Ljubljana and city Ljubljana. During the cooperation we have produced approximately **740 ha of reambulations of topographic maps and participated in its digitization afterwards.**

In 1994 we **performed the first cadastral topographic measurement** in the area of Spodnje Pirniče - Vikrče. By the year 2006 we have performed additional **325 ha of new land cadastre measurements** mainly in Primorska region and Logatec area for the Surveying and Mapping Authority of the Republic of Slovenia.

## KEY PROJECTS AND ACTIVITIES

In 1995 we started **working with company Savske elektrarne and Smelt - the construction operator of hydroelectric power plant Vrhovo**. For this purpose we performed the final land cadastre survey and complete topographic measurement of hydroelectric power plant Vrhovo. For construction purposes of hydroelectric power plant Boštanj we performed the transferring of construction location in kind. We have also produced a series of small land cadastre elaborates for purposes of Sava hydropower plants.

In recent years we have produced over **120 km of cadastral surveys of national roads for the Slovenian roads agency (DRSC)**. Additional **100 km cadastral surveys of local roads were performed for municipalities Idrija, Cerklje na Gori and Logatec**.

## KEY PROJECTS AND ACTIVITIES

For company Mobitel we produced **geodetic plans of base stations** including the preparation of the registry entry proposals for all their facilities.

We are a **strategic partner of corporations Hidria and Kolektor**. According to their needs we recently arranged their proprietary boundaries of parcels and created a data base and registry entry proposals for their facilities and plots in Slovenia.

In addition to these extensive projects company performs so called "small elaborates" - including **parceling, boundary regulations, geodetic plans, building evidences and registry entry proposals as well as consultancy for private and public clients** in Slovenia.

## KEY PROJECTS AND ACTIVITIES

The company also participated in various development projects, such as:

- The targeted research program "Competitiveness of Slovenia 2001 – 2006"; titled **Improvement procedures of land cadastre data** (for the test area: "Sv. Anton" and the "Truške").
- The first phase in the **creation of terrain processing for the building cadastre** - register data for the area of municipalities Idrija, Cerklje and Tolmin.

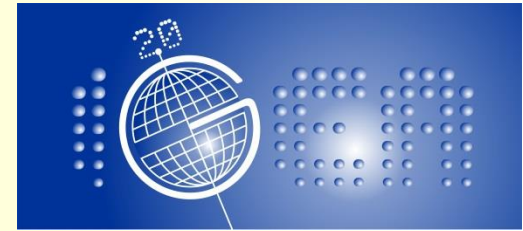

**PARS d.o.o.**

**SLOgeodeticcompany**

# **IGEA**

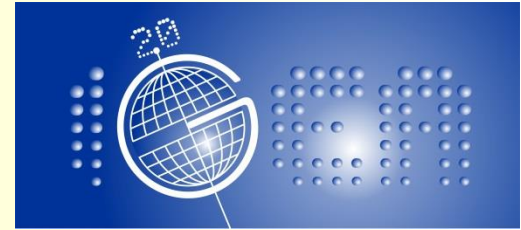

## **BASIC DATA**

---

Name: **Igea d.o.o.**  
Registered office: **Koprska 94, 1000 Ljubljana, Slovenija**  
Executive: **mag. Aleš ŠUNTAR**  
Founded: **1989**  
Employees: **30**  
URL: **[www.igea.si](http://www.igea.si)**

**SLOgeodeticcompany**

# IGEA

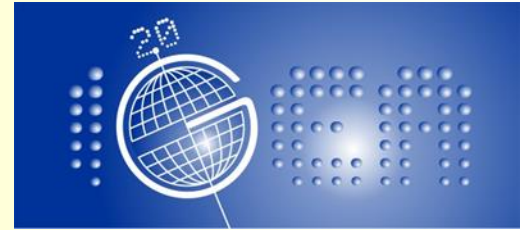

## BASIC DATA

IGEA company is:

- the **ISO 9001:2000** Quality Standard holder
- the **NATO C3 Agency BOA** (Basic Ordering Agreement) Certificate holder
- registered as a **research-and-development organisation** at the Slovenian Research Agency

**SLOgeodeticcompany**

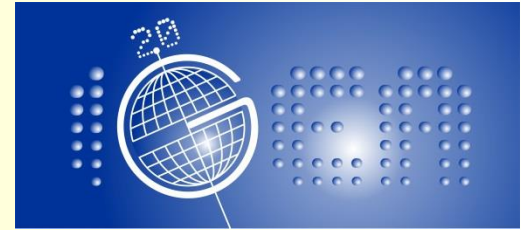

## SCOPE AND ACTIVITIES

---

The vision of **IGEA d.o.o.** is best described by its tagline  
**“LET'S MANAGE e-SPATIALLY TOGETHER”**.

The tagline illustrates and combines sciences related with space management, that we have to master in our projects (spatial planning, urban economics, geodesy, geographic information systems, information and communication technologies, process engineering, spatial engineering, etc.). The term “together” unequivocally describes our business approach – working in partnership.

## SCOPE AND ACTIVITIES

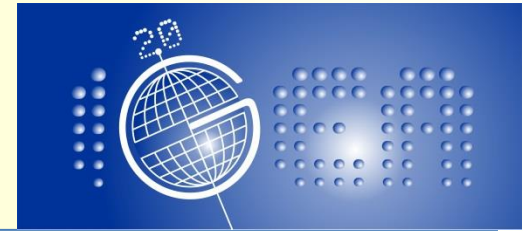

---

**IGEA** receives most of its income from the projects carried out in Slovenia, where our clients are public and state administration, local communities and private companies. The biggest market share is held by products and services which are directly linked to the management of real-estate registers; however, there is an increased need and demand for complete business services related to the management of real estate, infrastructure and space.

We participated in the setting up of the essential state registers of real estate. The **Land Cadastre, Building Cadastre and Cadastre of Public Infrastructure** are the three basic registers which are digitised and whose data are available to all interested parties on the World Wide Web. This achievement, enviable even on the international level, was made possible also with the help of our knowledge and work.

## SCOPE AND ACTIVITIES

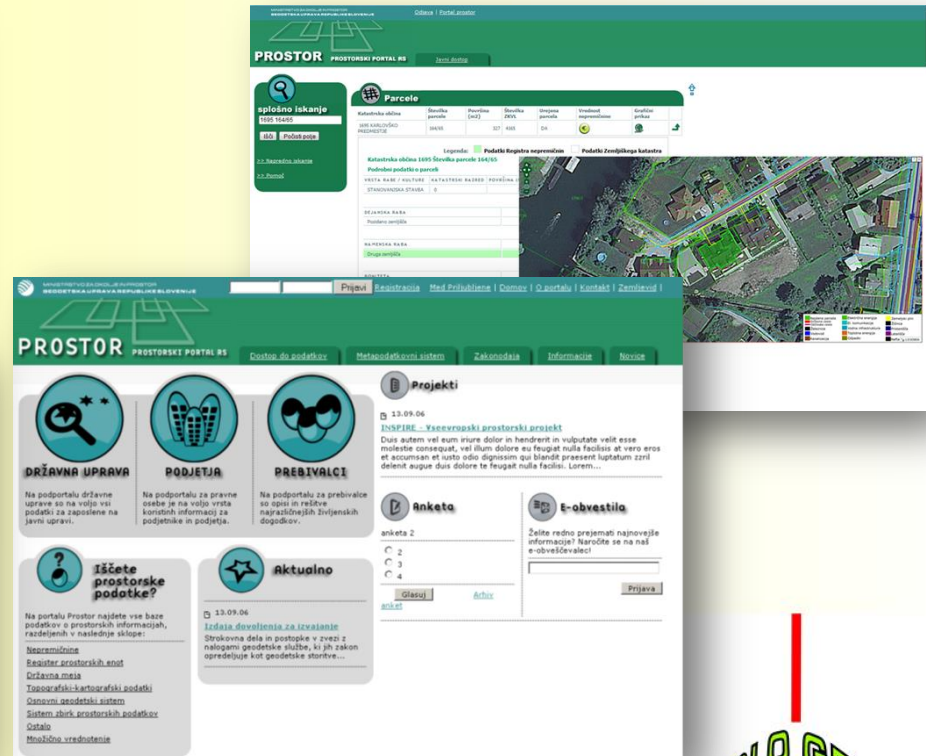

1. Informatization of state real-estate registers
2. GIS in business processes
3. Real-estate management
4. Land development
5. Urban and municipal economics
6. Adventures for active tourists
7. Protection and rescue
8. Security and defence

- ZK: LOKALNI NIVO - VZDRAŽEVANJE BAZE  
špici pri pimesi vzdrževanja baz ZK na lokalnem  
nivoju

## KEY PROJECTS

- **Development of RFID system for specialized needs**  
(client The Public Agency of the Republic of Slovenia for Entrepreneurship and Foreign Investments)
- **TRP – Basic research programme – Study and development of system for emergency response data access**  
(client Public Agency for Technology of the Republic of Slovenia (TIA))
- **UDIGISP**
  - **Part 1 - Managing and distribution of GIS data – UDiGISP**
  - **Part 2 - Maintenance of UDIGISP central database and implementation of UDIGISP information system**
  - **Part 3 – Upgrades and Maintenance of UDiGISP system**  
(client Ministry of Defence)

## KEY PROJECTS

- **e-Geocenter.com WEB GIS application (2006 – 2008)**  
(client: City Municipality Maribor)
- **Development of technical platform for the public transport service management in Slovenia - Information system SIJPRIS (2008 – 2010)**  
(client : Slovenian Road Agency)
- **Heritage trails net – regional network of touristic trails (2010)**  
(client: Municipality Trebnje)

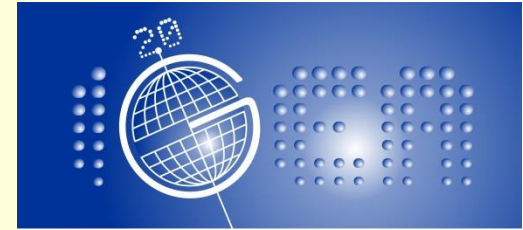

## KEY PROJECTS

- **Joined information system of the Real Property Registration and Land Cadaster of the Republic of Croatia (2007 – 2013)**  
(client: Croatian Ministry Of Justice  
State Geodetic Administration of the Republic of Croatia)
- **Information system for electronic cadastre for needs of the State authority for geodetic works (2008 – 2013)**  
(client : FYROM - State authority for geodetic works)
- **Agreement for consultancy services for the development and supplementing the information system of the electronic cadastre with new functionalities for the needs of the Agency for Real Estate Cadastre (2010)**
- **Agreement for rollout, maintaining, consulting and developing the electroniccadastre (e-Cadastre) information system (2011)**  
(client: Swedesurvey AB)

## ACTIVITIES

Our services in the **development of the information system of state real-estate registers** include

- **data capturing and processing,**
- **consulting** (conceptualisation of IS, modelling, process engineering, investments in hardware and software, etc.),
- **engineering** (project management, financial funds investigation, etc.),
- **development of web services** (planning, encoding, testing, maintenance, etc.),
- **training,**

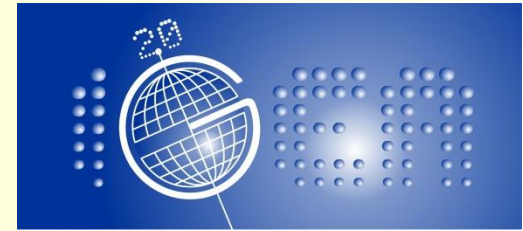

Our services in the field of **spatial data used in business processes** include:

- **identification of user needs,**
- **acquisition of spatial data,**
- **data geolocation,**
- **preparing relevant information/documents for the needs of management and decision-making process,**
- **development, upgrading or re-designing of business processes and information systems with the spatial component,**

## ACTIVITIES

---

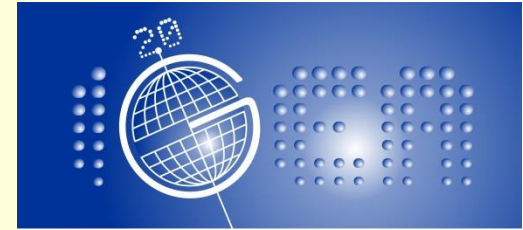

In the field of **real-estate management**, our services include :

- analysis of potential and problems of the real-estate stock,
- designing the strategy of real-estate management,
- consulting and operational support in the activities of the real-estate project office,
- setting up and maintaining the real-estate records in the 'What is Mine' web service,
- real-right registration of real estate,
- purchasing, leasing, getting easements and building rights for the client,
- link-up of real-estate data with business data,
- a complete solution to the privatisation of functional areas of multi-apartment and other buildings,
- land surveying and mapping services (land allotments, boundary regulations, floor ownership registrations, etc.),

## ACTIVITIES

---

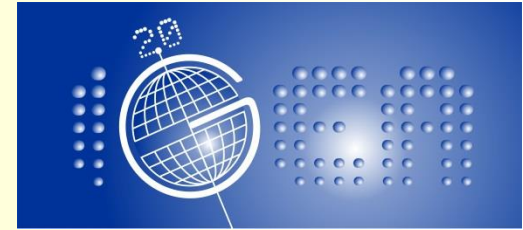

Our services in **land development** include:

- analysis from the spatial, infrastructure and real-estate aspects,
- consulting in identifying opportunities and aims, designing projects, setting up the organisational structure of projects and acquiring financial resources,
- setting up and dissemination of information to participants,
- setting up and management of a project office,
- preparation of investment documentation and documentation for starting public-private partnerships,
- planning and coordination of surveying and mapping services (geodetic maps, land allotments, land consolidations, etc.),
- real-right registration of real estate for the purpose of acquiring the right to build,

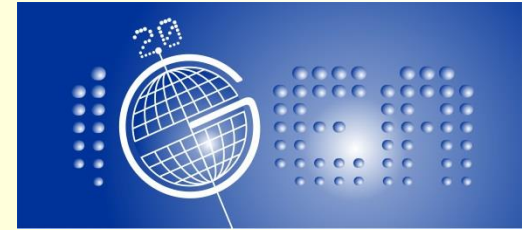

## ACTIVITIES

Drawing on extensive experience, **IGEA operates in all four areas of the protection and rescue system.** Our services comprise:

- **consulting in setting up the comprehensive protection and rescue systems** (including the integration of existent information systems, data acquisition, ICT, etc.),
- **engineering and acquisition of financial resources,**
- **development of turnkey software solutions** (planning, implementation, testing, training, maintenance),
- **support in data capturing and processing,**
- **assistance in setting up a project and project office,**
- **information support for the project office,**
- **consulting in the preparation of strategies and conceptualisations of prevention,**

## ACTIVITIES

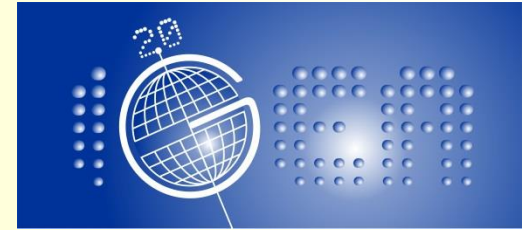

In the field of **defence**, the following services are offered:

- **development and integration of command and control information systems, which guarantee accordance with the NATO standards in interoperability, scalability, architecture and data exchange,**
- **management, distribution and integration of GIS data into command and control systems,**
- **RFID technology tracking,**
- **consulting and services in military real-estate management,**
- **consulting and services in the development of military real estate or the construction of military facilities**

Geodetski zavod **Celje** d.o.o.

## SCOPE AND ACTIVITIES

---

**Geodetski zavod Celje d.o.o.** is an company based in Slovenia with 55 years of experience providing international consulting and technical assistance services to public sector financed programmes.

**Geodetski zavod Celje d.o.o.** is specialist in land management, cadastral, topographic, photogrammetric and GIS services, spatial and rural development programming, implementation, monitoring and evaluation and in the provision of technical assistance for capacity building of national and local institutions promoting spatial, agricultural and rural development.

Geodetski zavod **Celje** d.o.o.

## SCOPE AND ACTIVITIES

**Geodetski zavod Celje d.o.o.** is involved in large infrastructure projects in Slovenia, especially in the construction of highways. The company has performed in the production bases for design, transfer of location objects in nature, editing cadastral data and subdivision of land, and participated in the supervision of construction.

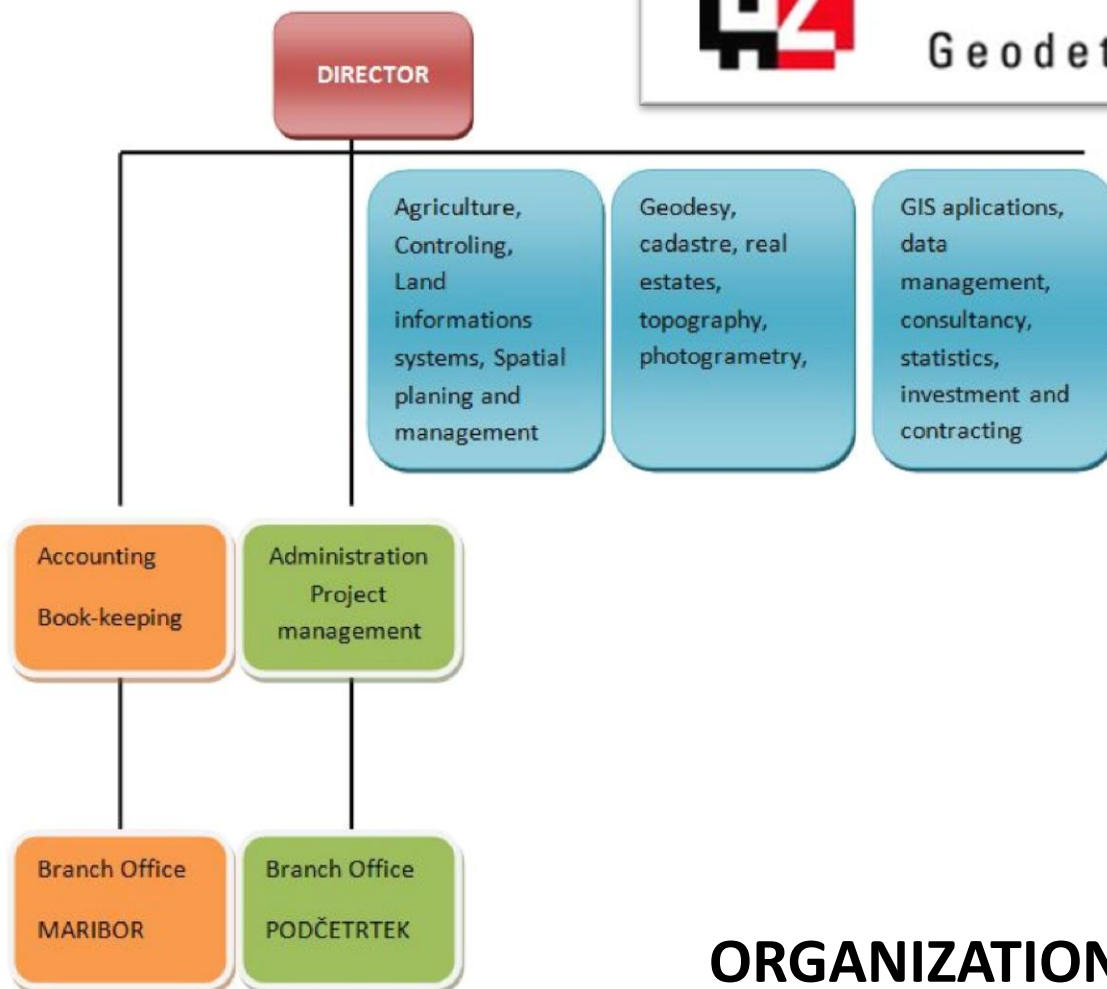

**Geodetski zavod Celje d.o.o.** is one of the leading providers of technical assistance to many Ministries in Slovenia and within potential candidates and candidate countries in the Western Balkans . Company has experience in world Bank Loan funded projects and EU founded projects ( Phare, IPA).

## KEY PROJECTS

Geodetski zavod **Celje** d.o.o.

- **Design of a real-estate cadastre** for 10 cadastral municipalities in municipality Žabljak 2010, (client Real-estate agency Montenegro)
- **Design of a real-estate cadastre** for 26 cadastral municipalities in municipality Pljevlja 2012, (client Real-estate agency Montenegro)
- **Design of a real-estate cadastre** for 18 cadastral municipalities in municipality Šavnik 2012, (client Real-estate agency Montenegro)
- **Design of a functional IACS and associated institutional capacity** in the FYROM 2010 (client Delegation of the European Union to the FYROM)
- **Development and implementation of agri-environmental measures** in Macedonia 2010 (client Delegation of the European Union to the FYROM)

## KEY PROJECTS

Geodetski zavod **Celje** d.o.o.

- **Census of agricultural economies 2010** (client Slovenian statistics office)
- **Land use/cover area frame statistical survey (LUCAS) 2009** (client EC Eurostat)
- **Leading contractor for all IACS controls in Slovenia 2006 - 2010** (client Slovenian paying agency)
- **Pilot study on control with remote sensing of area based subsidies** in Croatia and FYROM 2009 (client EC Joint Research Centre, IPSC)
- **Real estate census 2007** (client National survey authority of Slovenia)
- **Regional development 2007-2013: Development and registration procedures of cadastre of utility in Posavje** (client Government Office for Local Government and Regional Development and the European Regional Fund)

## KEY PROJECTS

Geodetski zavod **Celje** d.o.o.

- **Terrestrial laser scanning** (client Municipality, Individual companies)
- **Consolidation of agricultural parcels** (client Municipality)
- EU project - **Tourist range Šmartinsko lake** – realization of thematic ways around lake, PGD / PZI documentation for footpath next to Šmartinsko lake, he waters on section of odes at Grad, by barrier to boathouse Muzelj, with bridge and all accompanying objects -2006 (client Municipality Celje)
- **Land commassation** – 2004-2013 (client Municipalities)
- **Photogrammetric acquisition for sate topographic base** in measure 1 : 5000- 2005, 2006, 2007, 2008, 2011, 20012 (client Surveying and mapping Authority of the Republic of Slovenia)

## KEY PROJECTS

Geodetski zavod **Celje** d.o.o.

- **Helping registrators and owners of real properties at realization of data unfold concerning buildings and parts of buildings** – 2006-2007 (client Surveying and mapping Authority of the Republic of Slovenia)
- **Construction control**
  - Supervision of the geodetic and topographic survey results (checking and inspection of geodetic projects, checking and inspection geodetic engineering works during construction)
  - Checking and inspection of geodetic network, implementation methods of control and instruments. Conformation and coordination project with the contractor of the project.
  - Checking and inspection of real-time stakeout, calculating of volumes, monitoring of weight.

## ACTIVITIES

Geodetski zavod **Celje** d.o.o.

- Cadastral surveys and land consolidations, real estate evidences
- Productions of cadastral and maintaining of cadastral maps
- Information systems, IT projects, consultancy in GIS applications
- Advising, training and consultancy
- Providing internal procedures and methodologies
- Common affair process – document management, archiving, planning, human resource management
- Management and execution of IACS controls
- Statistical services, agri-environmental data collection, buildings, housing and population census
- Real estate business and consultancy, economic development
- Urban and spatial development, digital data bases, cartography
- Public infrastructure management support, civil engineering surveys
- Laser scanning, topography
- Planning and managing international projects, accessing EU funds
- Research and development
- Technical assistants, controlling, project management

**SLO**geodeticcompany

## ACTIVITIES

Geodetski zavod **Celje** d.o.o.

**Besides local geodetic service, for local communities company is performing services on the field of urban and communal economics:**

- Real estate registers, real estate management and taxation
- Public infrastructure assets, evidences and amortization calculation
- Local community spatial plans, urban and spatial development
- Simulations of various scenarios, economic development
- Advisory services at preparation legislation bases
- Preparation of conceptual and implementation design documentation
- Studies of development strategies of business/industrial zones
- Adoption of local community acts, consultancy services
- Support on marketing of space
- Land consolidations of agriculture and built land
- Topography, cartography and spatial information systems
- Spatial planning, urban planning
- Surveying services
- Construction control

**SLOgeodeticcompany**

Ljubljanski urbanistični zavod

# Urban planning institute of Ljubljana

## BASIC DATA

---

Name:	Ljubljanski urbanistični zavod d.d.
Registered office:	Verovškova ulica 64, 1000 Ljubljana, Slovenija
Executive:	Tadej Pfajfar
Founded:	1962
Employees:	80
URL:	<a href="http://www.luz.si">www.luz.si</a>

**SLO**geodeticcompany

## **SCOPE AND ACTIVITIES**

Ljubljanski urbanistični zavod

**LUZ, d.d.** (Ljubljana Urban Planning Institute) was established 50 years ago with the purpose of drafting the general plan of the city of Ljubljana. Since the establishment, we have drafted numerous urban planning schemes and we can say that we are 'at home' as far as spatial planning is concerned. We are characterised by tradition, versatility, quality and connections. We have many satisfied clients and successfully concluded projects..

**LUZ, d.d. employees are experts in preparation, organization, and management of demanding projects from all areas of spatial planning, management, and construction.**

## **SCOPE AND ACTIVITIES**

Ljubljanski urbanistični zavod

Individually and in cooperation with business partners, companies, experts and groups, we draft plans in the areas of spatial planning, urban planning, architecture and landscape architecture, environmental protection, transport planning, public utility infrastructure, energy and spatial information systems. We are increasingly developing new working areas. We are making our presence felt also in the area of urban economics and are examining opportunities offered by international projects.

**Diverse educational structure of our employees ensures the interdisciplinary representation of our project groups and integral approach to individual tasks**

**SLOgeodeticcompany**

## SCOPE AND ACTIVITIES

Ljubljanski urbanistični zavod

We have recently expanded our activities to the area of **comprehensive engineering consultancy**. In the last two years we took over and successfully carried out tasks in the following projects:

- **Implementation of a military airfield** (urban planning documents, project engineering, etc.);
- **Commercial zones:** Feniks (400 ha), Želodnik (10 ha), Oreh (10 ha);
- **Sports infrastructure:** Sports Park Stožice: Football stadium (16,000 seats), indoor sports arena (12,000 seats) with commercial centre (100,000 m<sup>2</sup>) and multi-storey car park (4,500 parking spots).
- **New general and detailed urban planning scheme** for the city of Ljubljana, the Municipality of Piran, the Municipality of Bled and the Municipality of Bohinj

## KEY PROJECTS

Ljubljanski urbanistični zavod

- **Military airport “Cerklje ob Krki”**
  - Master plan and urbanistic documentation
  - Project documentation TBCE second level for implementation of package of capacity CP 5A0062  
(Government of the Republic of Slovenia, Ministry of Defence)
- **Urbanistic documentation and concept projects of an Economic center Phoenix in Posavje (400 ha)** (Public Agency of the Republic of Slovenia for Entrepreneurship and Foreign Investments)
- **“Sport park Stožice”**
  - Engineering
  - Building permit and preparing a contract about equipping
  - Project documentation for public utility infrastructure and traffic infrastructure  
(GREP d.o.o.)

## KEY PROJECTS

Ljubljanski urbanistični zavod

- **Preparing the project for highways**
  - Blagovica - Šentjakob (DARS, d.d.)
  - Razdrto - Vipava (DARS, d.d.)
  - Šentvid - Koseze (DARS, d.d.)
  - Jagodje - Lucija (DARS, d.d.)
  - Jeprca - Stanežiče - Brod (DARS, d.d.)
  - Želodnik – Mengeš - Vodice (DARS, d.d.)
- **Program of equipping on range of municipality Škofja Loka and making a replacement and construction of public utility infrastructure in municipality Škofja Loka** (water supply, waste water, gas)  
(Municipality of Škofja Loka)
- **Preparing urbanistic documentation and projects for residential district “Bežigrajski dvori - Ljubljana”** (IMOS, d.d.)

## KEY PROJECTS

Ljubljanski urbanistični zavod

- **Preparing urbanistic documentation and projects for residential district “Mostec - Ljubljana” (IMOS, d.d.)**
- **Preparing urbanistic documentation and projects for residential and business district “Metelkova - Ljubljana” (Energoplan d.d.)**
- **Preparing urbanistic documentation and projects for business center “LUZ - Ljubljana” (LUZ, d.d.)**
- **Outline concepts for Military training center OSVAD (160 km<sup>2</sup>) and project documentations for struggle in settlement Poček (Government of the Republic of Slovenia, Ministry of Defence)**
- **Spatial Implementation Plan for Municipality of Ljubljana (Municipality of Ljubljana)**
- **Strategic and Spatial Implementation Plan for Municipality of Piran (tourist district) (Municipality of Piran)**
- **Strategic and Spatial Implementation Plan for Municipality of Bohinj (tourist district) (Municipality of Bohinj)**

## KEY PROJECTS

Ljubljanski urbanistični zavod

- **Strategic and Spatial Implementation Plan for Municipality of Bled** (turist district) (Municipality of Bled)
- **National spatial plan for transferable gas pipeline M3/1 Kalce-Ajdovščina** (Geoplin plinovodi Ltd.)
- **Performed services for inquiry and procurement of data about the cadastral status of owners or legal heirs who entered into the land sales contracts within the construction project of the 2nd line of the Ljubljana-Jesenice railroad** (Slovenian Railways)
- **Purchase of web application for implementation of Environmental Atlas** (Ministry of the Environment and Spatial Planning - Environmental Agency of the Republic of Slovenia)
- **Construction of the information system Natura 2000** within the project life – “Natura 2000 in Slovenia – administration models and information systems” (LIFEE04NAT/SI/000240) (Institute of the Republic of Slovenia for Nature Conservation)

## KEY PROJECTS

Ljubljanski urbanistični zavod

- **Establishment of the cadastral registry of buildings** (The Surveying and Mapping Authority of the Republic of Slovenia)
- **Application for evidence of traffic signalization** (WEPS Slovenian Roads Agency)
- **Project for updating the real estate records, the establishment of the cadastral registry of buildings – registry data** (The Surveying and Mapping Authority of the Republic of Slovenia)
- **Maintenance of the geographic information system for the City of Ljubljana** (Municipality of Ljubljana)
- **Geographic information system of the Petrol** (leading energy company in Slovenia) network (Petrol, d.d.)
- **Integration of tourist interactive map to web portal of tourist destination** (Ljubljana Tourist Board)
- .....

## **DIGI DATA d.o.o.**

### **BASIC DATA**

---

Name:	<b>DIGI DATA d.o.o.</b>
Registered office:	<b>Delavska 94, 4208 Šenčur, Slovenija</b>
Executive:	<b>Matjaž GRILC</b>
Founded:	<b>1992</b>
Employees:	<b>5</b>
URL:	<b><a href="http://www.digidata.si">www.digidata.si</a></b>

## SCOPE AND ACTIVITIES

---

**DIGI DATA d.o.o.** is project leader and consultant for major projects, editing and managing real estate. Especially in recent years we have been focused on geoinformation support for major property owners, local communities, and managers of state assets, managing real estate and space, which requires knowledge of urban economics, law, surveying and spatial information.

### **Special skills:**

Project management, education and training, consulting with focus on real-estate records, SDI, GIS, INSPIRE

## KEY PROJECTS

- **Vectorisation of land cadastre plans in Slovenia** (The Surveying and Mapping Authority of the Republic of Slovenia)
- **Establishment of the building cadastre in Slovenia** (The Surveying and Mapping Authority of the Republic of Slovenia)
- **Helping registrators and owners of real properties at realization of data unfold concerning buildings and parts of buildings – 2006-2007** (client Surveying and mapping Authority of the Republic of Slovenia)
- **Real estate census 2007** (client National survey authority of Slovenia)
- **Establishment of State Cadastre of Public Infrastructure** (The Surveying and Mapping Authority of the Republic of Slovenia)
- **Disclosure of information on Real estate Valuation** (The Surveying and Mapping Authority of the Republic of Slovenia)

## KEY PROJECTS

- **Project for updating the real estate records, the establishment of the cadastral registry of buildings – registry data** (The Surveying and Mapping Authority of the Republic of Slovenia)
- **Census of agricultural economies 2010** (client Slovenian statistics office)
- **Production and maintaining Real estate evidences** (own IT solutions) for municipality Trbovlje and Kranj
- **Production and maintaining Real estate evidences** (own IT solutions) for Real Estate Fund of pension and disability insurance, Ministry of Education and Sports
- **Production and maintaining Real estate evidences** for major companies Petrol d.d., RTH d.o.o., BTC d.d., Ljubljanske mlekarne d.d., and Lesnina d.d.

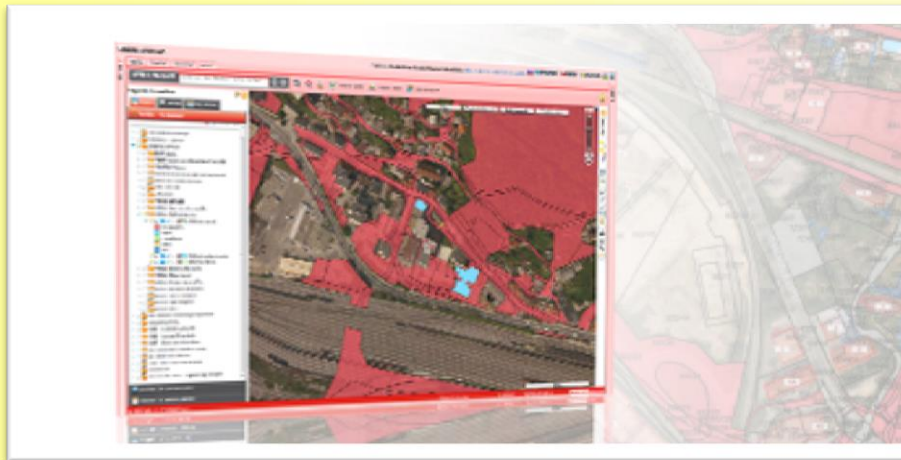

## ACTIVITIES

---

- Production and maintaining real estate evidences for major owners
- Productions of cadastral and maintaining of cadastral maps
- Information systems, IT projects, consultancy in GIS applications
- Advising, training and consultancy
- Common affair process – document management, archiving, planning, human resource management
- Statistical services, environmental data collection, buildings, housing and population census
- Real estate business and consultancy, economic development
- Urban and spatial development, digital data bases, cartography
- Public infrastructure management support, civil engineering surveys
- Technical assistants, controlling, project management
